MICHAEL BARBER PHOTO

Experience award-winning wedding photojournalism by Michael Barber

Michael Barber

Photojournalist Michael Barber never anticipated that one day he would photograph weddings for a living.

After all, he had spent nearly 20 years documenting life in central Ohio for newspapers, magazines and the Associated Press.

His experience in spot news, sports and feature photography had earned him numerous state and national awards. He was even published in LIFE Magazine.

Michael's future as a newshound appeared to be clearly set until one day in 1998 a friend asked him to photograph her wedding.

He rejected the idea until the bride requested he shoot her wedding as if he were documenting a news story. The rest, as they say, is history.

Michael photographed his first wedding using a combination of B&W and Color imagery to create an honest depiction of the day's events.

He was instantly enthusiastic about the impact that the photographs made.

“My goal in photographing news was to see things differently and to bring emotion I had witnessed to readers”, Michael said. “Weddings quickly became my passion as they offer the intensity and significance that every news person craves.”

Michael left the news business to pursue weddings full time in 2003.

He is often awarded by the Wedding Photojournalist Association and has been named one of The Knot's Best in 2008, 2009 and 2010.

“You were able to capture those unseen moments that most people probably didn't get a chance to see, along with photos that captured images of things even I didn't get to see myself! Truly wonderful!

Photography Coverage

Your wedding day, fully documented and beautifully accessible

Michael Barber is changing the way couples think about the business of wedding photography.

Rather than charge large fees for extensive, often confusing packages, Michael provides shoot-only service at an hourly rate of \$250, then posts edited images online 3 weeks later in a secure environment for convenient access for 90 days.

Using an innovative digital delivery service known as Dropbox, couples and their guests are invited to browse, select and download high-resolution image files for unlimited printing.

No waiting. No print fees. No catch!
The pictures you anticipated, available on demand.

Images downloaded from Dropbox can be used to make quality prints, create slideshows for Web, iPod or iPad or submitted to a design company of your choice for wedding album production.
